

In the Title:

Please amend the title as follows:

A METHOD AND DEVICE FOR MEASURING THE THICKNESS AND THE ELECTRICAL  
CONDUCTIVITY OF AN ~~OBJECT OF MEASUREMENT~~ ELECTRICALLY CONDUCTING  
SHEETS

In the Specification:

Please amend the specification as follows:

Page 17, second paragraph:

The method according to the invention may, at least partly, be carried out with the aid of program codes which are run in a processor or on a computer, and these program codes may be stored on a computer-readable medium such as a hard disk, a diskette, a CD-ROM, other movable memory, etc. The program codes may be at least partly transmitted via a network. The network may be the internet.
